

AQUAFLOAT

600mm dia. Marker Buoy

The Sealite AQUAFLOAT is a rotationally moulded marker buoy designed to give customers flexibility in their floating aid requirements.

A large central eye suits a 55mm OD pipe mount, or may be used to aid installation or provide multiple rope anchorage points.

The AQUAFLOAT is urethane foam filled to prevent water ingress in the unlikely event of damage, and is offered in all high-visibility IALA colours.
